Terra Pouf

Eco-friendly seating in cork

Terra Pouf

Soft design, natural comfort

The Terra Pouf is a sculptural seat crafted entirely from expanded cork. Lightweight and versatile, it functions as a pouf, footrest, or side table while enhancing interiors with natural warmth and acoustic comfort.

Design by: Alain Gilles

Specifications

- Available in 2 sizes
- Functions: seat, footrest, or side table
- Body made of expanded cork with acoustic properties
- Renewable, recyclable & maintenance-free material

Materials

Expanded cork	
Origin	Europe
Durability	Stable, waterproof, recyclable & reusable – no additives needed
Health	Non-toxic, non-allergen, no emissions under fire
Lifespan	Practically unlimited without loss of properties
Mechanical	High density(100–120 kg/m³) – excellent stability & resistance
Sound absorption	NRC 0.35 (ISO 11654:1997)

Expanded cork is a by-product of the cork industry, made by steam-heating cork granules from the upper bark of cork oak trees.

This process naturally binds the material **without additives**, creating **lightweight blocks** with **excellent acoustic properties**.
