📦 12 kg (26,4 lbs)

📦 Density(400 kg/m³)

Sneaker Black

Cork + recycled black microfiber

📦 10,8 kg (23,8 lbs)

📦 Density(360 kg/m³)

Mario Pouf

100% recycled cork

These graphic pieces make a statement thanks to the beauty and uniqueness of cork, and its natural properties.

Alain Gilles developed the concept to bring the natural world into workspaces and commercial environments. Each piece acts as a natural acoustic element while reducing stress and promoting wellbeing.

All versions are made entirely from recycled cork, making the Mario Pouf one of the most sustainable seating options available.

FINISHES & MAINTENANCE

WARRANTY

The Mario Pouf carries a ten year warranty. For further details please refer to our Terms and Conditions.

MAINTENANCE

To keep your Mario Pouf looking its best we recommend regular, gentle cleaning with a slightly damp cloth. Any spills should be immediately blotted with an absorbent cloth.
